

UI/UX Design Lead

True Image Interactive Development Team

Overview

True Image Interactive, Inc. is looking for a seasoned User Interface / User Experience Design Lead to assist us in developing software that changes the way people communicate with technology and each other.

Responsibilities

- Design user interfaces for various projects including web-based and mobile.
- Identify changes and new visions for existing projects.
- Work with project teams as the main point of decision making for all user interface related tasks.
- Create prototypes for business user approval.
- Test implemented designs for feature approval, layout, and expected experience.

Desired Skills & Experience

- HTML, CSS/SASS, jQuery, JavaScript
- Responsive frameworks (i.e. Twitter Bootstrap, Materialize, etc.)
- Experience with AngularJS
- Experience with Mobile Development frameworks (PhoneGap, Ionic, etc.)
- UX/UI Design
- Design concepts (i.e. Material Design)
- Wire framing and Prototyping
- Photoshop, Balsamic
- Experience with Agile Methodologies
- Familiarity with Git source control

About True Image Interactive
